HIWATT

Listen to the Hiwatt difference and experience the warm, sweet sound of tubes; the rich, open harmonics and long natural singing sustain like no other amplifier. Construction standards so high that every component we put into our amplifiers or speaker cabinets short of the finest would be an insult to our pride. That's what you get when you own a Hiwatt. Handcrafted with pride and emotion like your music requires.

PERFECTION — YOU DEMAND IT OF YOURSELF. WE DEMAND IT OF OUR AMPLIFIERS.
